DETAILED ACTION

Applicants' amendments filed on 10/22/02 and 3/5/03 in Paper Nos. 24 and 26, respectively have been entered.

Claims 1-2, 4-18, 21-26, 29-60, 62, 67-78 and 80-91 are pending in the present application.

However, in response to the Office Action mailed October 12, 2001 in Paper No. 23, Applicants have failed to elect a species for claim 83 as required in Paper No. 23 (see page 9). Applicant is required under 35 U.S.C. 121 to elect a specifically named species as indicated in the Office Action.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the

Art Unit: 1636

case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Quang Nguyen, Ph.D., whose telephone number is (703) 308-8339.
